Biology –Taxonomy Project Classification is an important part of any biology course. As you will discover as you work on this project, organisms can be classified with a variety of methods. A phylogenetic tree is a specialized classification scheme that is used to demonstrate possible evolutionary relationships between types of organisms.

### Biology -Taxonomy Project

Evolution & Taxonomy. Evolution is often called the “unifying theory of biology” because it organizes all of the observations gathered by biologists and proposes and explanation for those observations. All state standards for teaching science include a section on evolution (sometimes called adaptation or change over time).
