Remove the Motometer from the radiator cap, and immerse the bulb of it as deeply enough in hot water, so that the bulb heats along its length--you should see red dye. This leads me to wonder if you have enough water in your radiator--the water should be up to the overflow, and stay there, that will put the bulb of the Motometer into the coolant ...

lometer project - Documents

The Boyce MotoMeter was a simple device. Although it not always warned about engine overheating in time to prevent damage, it offered for the first time information about the engine temperature from the driver's seat. Motometers were at first aftermarket devices. Later, vehicle builders (not only car manufacturers)...
